PROFESSIONAL SUMMARY

Software Developer with 2+ year of industry experience building and maintaining web applications across backend, frontend, database, and deployment layers. Experienced with Django and Django REST Framework, React, Vue.js, PostgreSQL, and GIS-related systems, with hands-on work integrating APIs, authentication, data workflows, dashboards, and production deployments. Comfortable taking features from implementation through integration, testing, maintenance, and delivery.

TECHNICAL SKILLS

Languages	Python, JavaScript, HTML, CSS
Frontend	React, Vue.js, Next.js, Quasar
Backend	Django, Django REST Framework, REST APIs, JWT authentication
Databases	PostgreSQL, PostGIS, SQL Service
APIs & Integrations	REST API integration, authentication, role-based access and permissions to control , payment integrations, third-party services
DevOps / Cloud	Linux, Docker, Nginx, Gunicorn, GitHub Actions, VPS deployment
GIS / Specialized	PostGIS, geospatial web applications, mapping/data workflows
Tools	Git, GitHub, VS Code, Postman, Locust

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Dec 2025 – Present

Thimi Tech Pvt. Ltd. · Kathmandu, Nepal

- Develop and maintain production web applications using Django and Django REST Framework, with Vue.js-based interfaces and PostgreSQL-backed data workflows.
- Implement backend APIs, business logic, authentication, CRUD workflows, and integrations required by application features.
- Work with GIS-related functionality and geospatial data workflows using PostgreSQL/PostGIS and web mapping systems.
- Contribute across development, debugging, testing, deployment, and ongoing maintenance rather than working only on isolated features.
- Work on real-world platforms spanning travel, geospatial/data systems, reporting, and civic or operational workflows.

Full-Stack Developer

Jun 2024 – Dec 2025

Upveda Technology Pvt. Ltd. · Kathmandu, Nepal

- Developed business applications using Django/Django REST Framework on the backend and React/Next.js on the frontend.
- Built REST APIs, data-entry and reporting workflows, dashboard functionality, and frontend integrations for production systems.
- Worked on the Direct Sales Report (DSR) system and business-facing MIS/customer applications, connecting application logic, databases, and user interfaces.
- Maintained and improved existing application features through debugging, refactoring, API integration, and incremental UI/backend enhancements.

SELECTED PROJECTS

PlanMyNepal

End-to-end travel planning and booking platform for people exploring Nepal.

Contribution: Worked on backend and application features covering traveler/provider workflows, profiles, bookings, authentication, ratings/media, recommendations, and payment-related integrations.

Stack: Django, Django REST Framework, PostgreSQL/PostGIS, Vue.js

PURENepal

Geospatial and analytical web application supporting data-driven planning and reporting workflows.

Contribution: Worked on Django/Vue features, PostgreSQL/PostGIS-backed data, analysis/reporting workflows, issue resolution, and production-oriented testing and deployment work.

Stack: Django, Django REST Framework, Vue.js, PostgreSQL/PostGIS, GIS

Direct Sales Report(DSR)

Business reporting system for managing sales data and generating structured reports.

Contribution: Developed backend APIs and application workflows for sales-data management, reporting, and frontend consumption; worked across Django and React components.

Stack: Django, Django REST Framework, React, PostgreSQL

MIS & Customer Applications

Business-facing management and customer web applications built around operational data and service workflows.

Contribution: Contributed to backend APIs, data workflows, dashboards, authentication, and frontend integration across Django, React, and Next.js applications.

Stack: Django, Django REST Framework, React, Next.js, PostgreSQL

EDUCATION

Bachelor of Science in Information Technology (BSc.IT)

2021 – 2024

University of Sunderland

CERTIFICATIONS & TRAINING

- Django Certificate — Sipalaya InfoTech
- Additional practical experience through production web application development, API development, deployment, GIS workflows, and full-stack projects.
